

Automate Ancillary Charge Input

Volume 3 No. 1

The days of inputting ancillary charges resident by resident, item by item, are over! This means a massive reduction in the man-hours required to enter miscellaneous charges, especially those related to Medicare Part B.

The key to this new application can be summed up in one word, flexibility. When customers invest in this new application they are receiving a tool that has the ability to import charges from a variety of vendors. Gone are the days when a new application had to be written to interface with each and every vendor. With the time required to input ancillary charges each and every month, this new application will pay for itself in *less than six months!*

...has the ability to import charges from a variety of vendors. The process can be completed in minutes.

Each month your therapy, pharmacy, medical supply vendor, or any third party vendor that provides ancillary services, will send you a file. This file is either comma delimited or in another format such as an Excel spreadsheet. A few simple steps migrate the file to the HDSI server, and you're ready to run the Automated Ancillaries Application. When finished, all valid ancillary charges for the specific vendor reside in the appropriate patients accounts. The process can be completed in minutes!

Call HDSI today at (847) 398-0000 and see how to implement this exciting new application.

Network Support Services from HDSI

Health Data Systems Network Support Services provides a wide range of solutions that include maintaining individual workstations, creating and maintaining entire network infrastructures, and providing onsite and offsite backup solutions. Using an Internet connection, software updates can be done remotely, further reducing maintenance costs. Whether for a small office or a wide area network across several states, using onsite or offsite backups, HDSI has a solution to meet your needs.

- Comprehensive introductory evaluation on every workstation in your building/enterprise.
- Quarterly maintenance and annual onsite visits culminating in a complete service report.
- Incentives include free virus protection software and preferred response time.

HDSI offers solutions that provide peace of mind by applying the resources and experience of a company that not only knows the industry, but your business as well. Make HDSI your trusted source to create and/or maintain your networking environment by calling us today at (847) 398-0000.
